

Fonction

Réducteur de température sur circuit liquide, gaz ou vapeur.

Il permet la protection des instruments de mesures : pressostat, manomètre, transmetteur de pression.

Caractéristiques

Matière Inox 316 Ti

Raccord instrument ½" GF (tournant) ou ½" NPTF

Raccord procédé ½" GM ou ½" NTPM

Type	Raccord	Code
1	½" GF - ½" GM	A3010-100
2	½" NPTF - ½" NPTM	A3010-200

Function

Temperature reducer for liquid, gas or vapor process. These accessories are designed to protect pressure instruments : switch, gauge and transmitter.

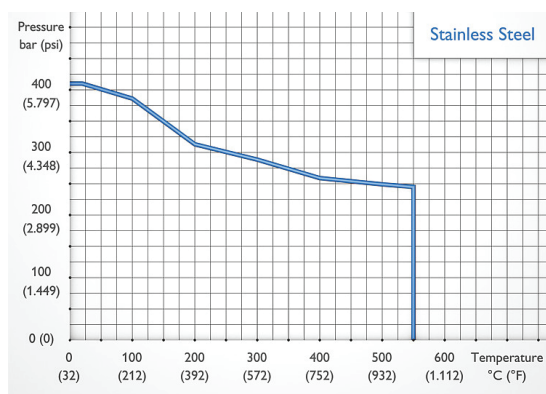

Technical data

Material 316 Ti st.st.

Instrument connection ½" GF (adj. nut) or ½" NPTF

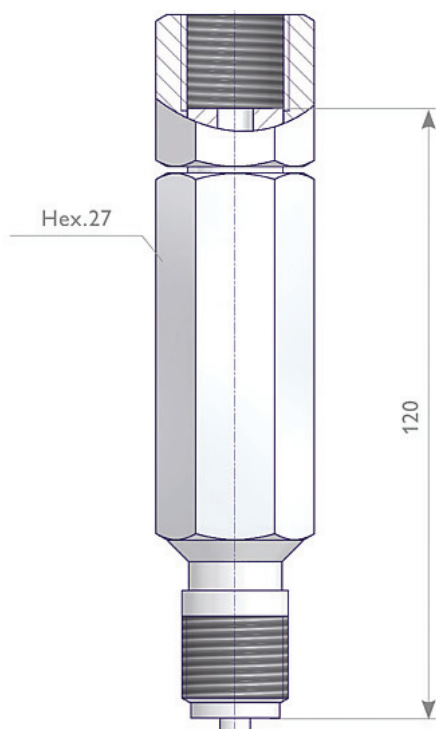

Process connection ½" GM or ½" NTPM

Type	Raccord	Code
1	½" GF - ½" GM	A3010-100
2	½" NPTF - ½" NPTM	A3010-200
